1 Summary of Performance

1.A Introduction

This Budget Performance Report for Ebonyi State is prepared quarterly and issued within 4 weeks from the end of each quarter.

This report includes the approved budget appropriation for the year 2024 against each organizational unit for each of the core economic classifications of expenditures (Personnel, Overheads, Capital, and Others); the actual expenditures for the 3rd Quarter (Q3), attributed to each organizational unit, as well as the cumulative expenditures for the year to date, and balances against each of the revenue and expenditure appropriations. Quarter 3 performance is assessed against the 2024 Original Budget.

The core economic classifications refer to:

- Personnel – Economic Sub-Account Type 21
- Overheads - Economic Account Class 2202
- Capital - Economic Sub-Account Type 23
- Others - Economic Account Classes 2203-2209

This Budget Performance Report is produced by the Ministry of Budget, Planning, Research & Statistics and published on the Ebonyi State Government website.

1.B Revenue Performance

During the 3rd quarter of 2024, Ebonyi State Government achieved tremendous success in revenue generation. The overall revenue performance, encompassing internally generated revenue (IGR), Federation Account Allocation Committee (FAAC) receipts, and Capital Receipts, stood at 104.3% of the budgeted revenue, including the opening balance.

With a performance of 73.4% of projected recurrent revenue as of the end of Q3, the State's actual recurrent revenue fell short of its projection by 1.60%. FAAC receipts at the end of Q3 were at 76% which is above its quarterly projection by 1%. This performance is above optimum of the expected 75% by mid-year, and we anticipate continued strong performance in FAAC receipts, particularly from non-oil revenue sources such as Exchange Gain and VAT, due to the Federation's focus on reducing reliance on oil.

The State's actual IGR collection by the end of Q3 2024 was 62.4% of the final budgetary figure, falling short by 12.6% based on trimester expectations. However, this shows an upward trajectory from the 2nd quarter which stood at 41.4% which is a 21% improvement. The push towards automation by the new leadership of the Ebonyi State Internal Revenue Service has started to make an impact by closing loopholes in collection processes. This had led to higher receipt of payments per assessment of taxpayers. Though with this increase, the collection from the Solid Mineral sector is still lacking. This is attributed to the rainy season which has led to the shutdown of some pits in the State. As we approach the dry season, we expect increased receipts from this arear as the pits become fully operational.

Capital Receipts had an overall performance of 62.2% in Q3, a 37.16% surplus based on the quarterly performance expectations (25%) of the budgeted line. This remarkable performance is due to over the N38bn received by the State, including funds from Signature Bonus, Infrastructure Funds, Flood

Relief, World Bank funds (RAAMP, IMPACT Project, LPRES Project) and others. These funds were anticipated earlier to support significant capital projects.

Aids and Grants performed at 47% of the allocated 2024 budget line, exceeding the quarterly expectation of 25% performance. This success is attributed to the State receipt of N10bn Infrastructure from the Federal Government.

For Capital Development receipts, the State received over N8.8bn from World Bank-supported programs such as the Rural Access & Agricultural Marketing Project (RAAMP), Immunization Plus and Malaria Progress by Accelerating Coverage and Transforming Services (IMPACT) and the Livestock Productivity and Resilience Support Project (L-PRES).

At the sectoral level, the Economic Sector led in terms its share of annual budgeted revenue realized by the end of Q3 2024, achieving 99.8%. The Regional Sector followed with 84.4%, the Law and Justice Sector with 56%, the Social Sector with 51.5%, and the Administration Sector with the least performance of 7.9%.

With an aggregate performance of 104.3% as of the end of Q3, Ebonyi State has surpassed expectations and is in a very healthy position to achieve its stated objectives in provision of Infrastructure and Human Capital Development for the Ebonyi State Citizenry.

1.C Recurrent Expenditure Performance

The actual recurrent expenditure of the Ebonyi State Government in Q3 2024 represents 28.7% of the annual aggregate budgeted recurrent expenditure. This performance is above the expected 25% per quarter, assuming even distribution over the four quarters.

Disaggregating the recurrent expenditures for Q3, Personnel costs accounted for 18.8% of the annual budgeted personnel cost. This performance is below the 25% quarterly mark. At the sectoral level, the Administration Sector led with 35.1% of its annual budgeted personnel cost spent within the quarter, followed by the Social Sector at 17.6%. The Regional Sector at 17.3%, and the Economic Sector at 16.2% follows; with the last being the Law & Justice Sector coming in at 7.7%.

The State Government's overhead costs performance in Q3 stood at 35.5% of the annual budgeted amount. The Regional Sector led with 44.81%, followed by the Administration Sector at 42.3%, the Economic Sector at 30.3%, and the Social and Economic Sectors at 15.6% and 10.8%, respectively.

It is important to note that recurrent expenditure is expected to increase significantly in Q4 2024 as the newly recruited 1,500 civil servants begin to receive salaries.

1.D Capital Expenditure Performance

Out of the budgeted capital expenditure of N132,804,740,000.00 for 2024, N40,023,572,883.71 was spent on capital projects in Q3, representing 30.1% of the budgeted capital expenditures. This performance exceeds the expected 25% per quarter for full implementation of the capital expenditure budget. This can be attributed to payments for contracts awarded for the construction of Senior and Quarters for ICT University and University of Aerospace Engineering, Counterpart of UBEC Infrastructure Funds, and mobilization for numerous road projects in the State.

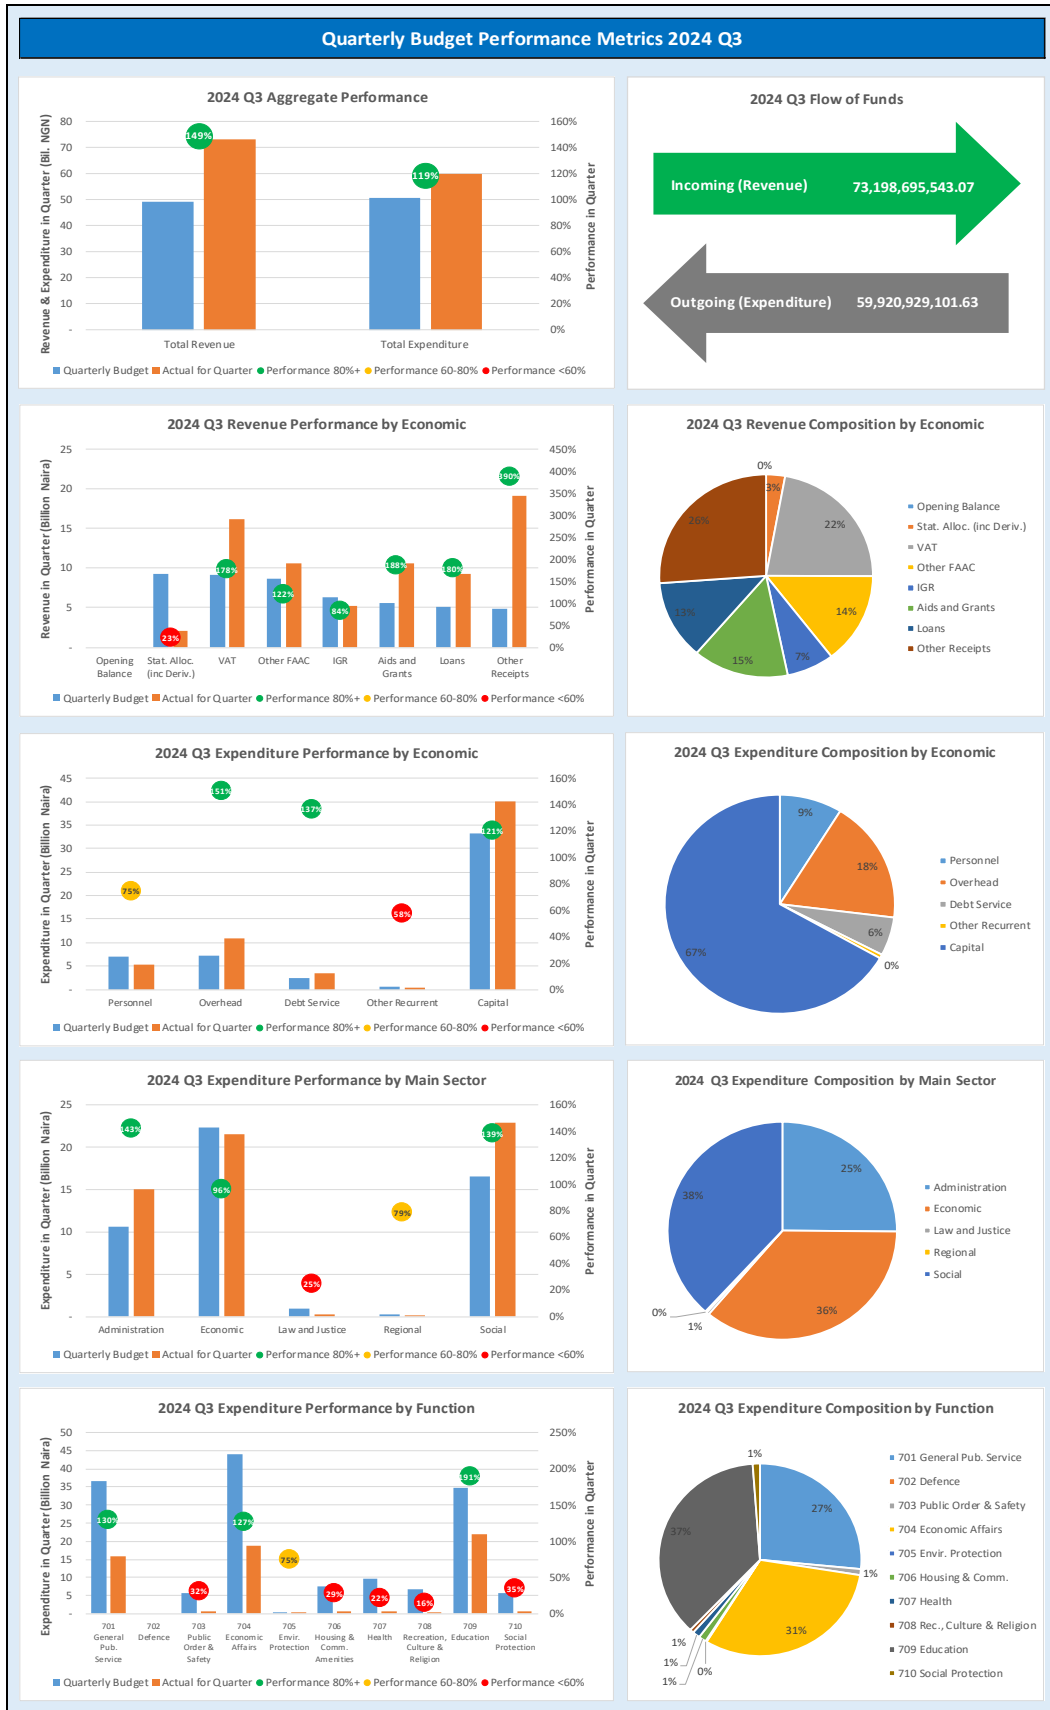

1.E Conclusions

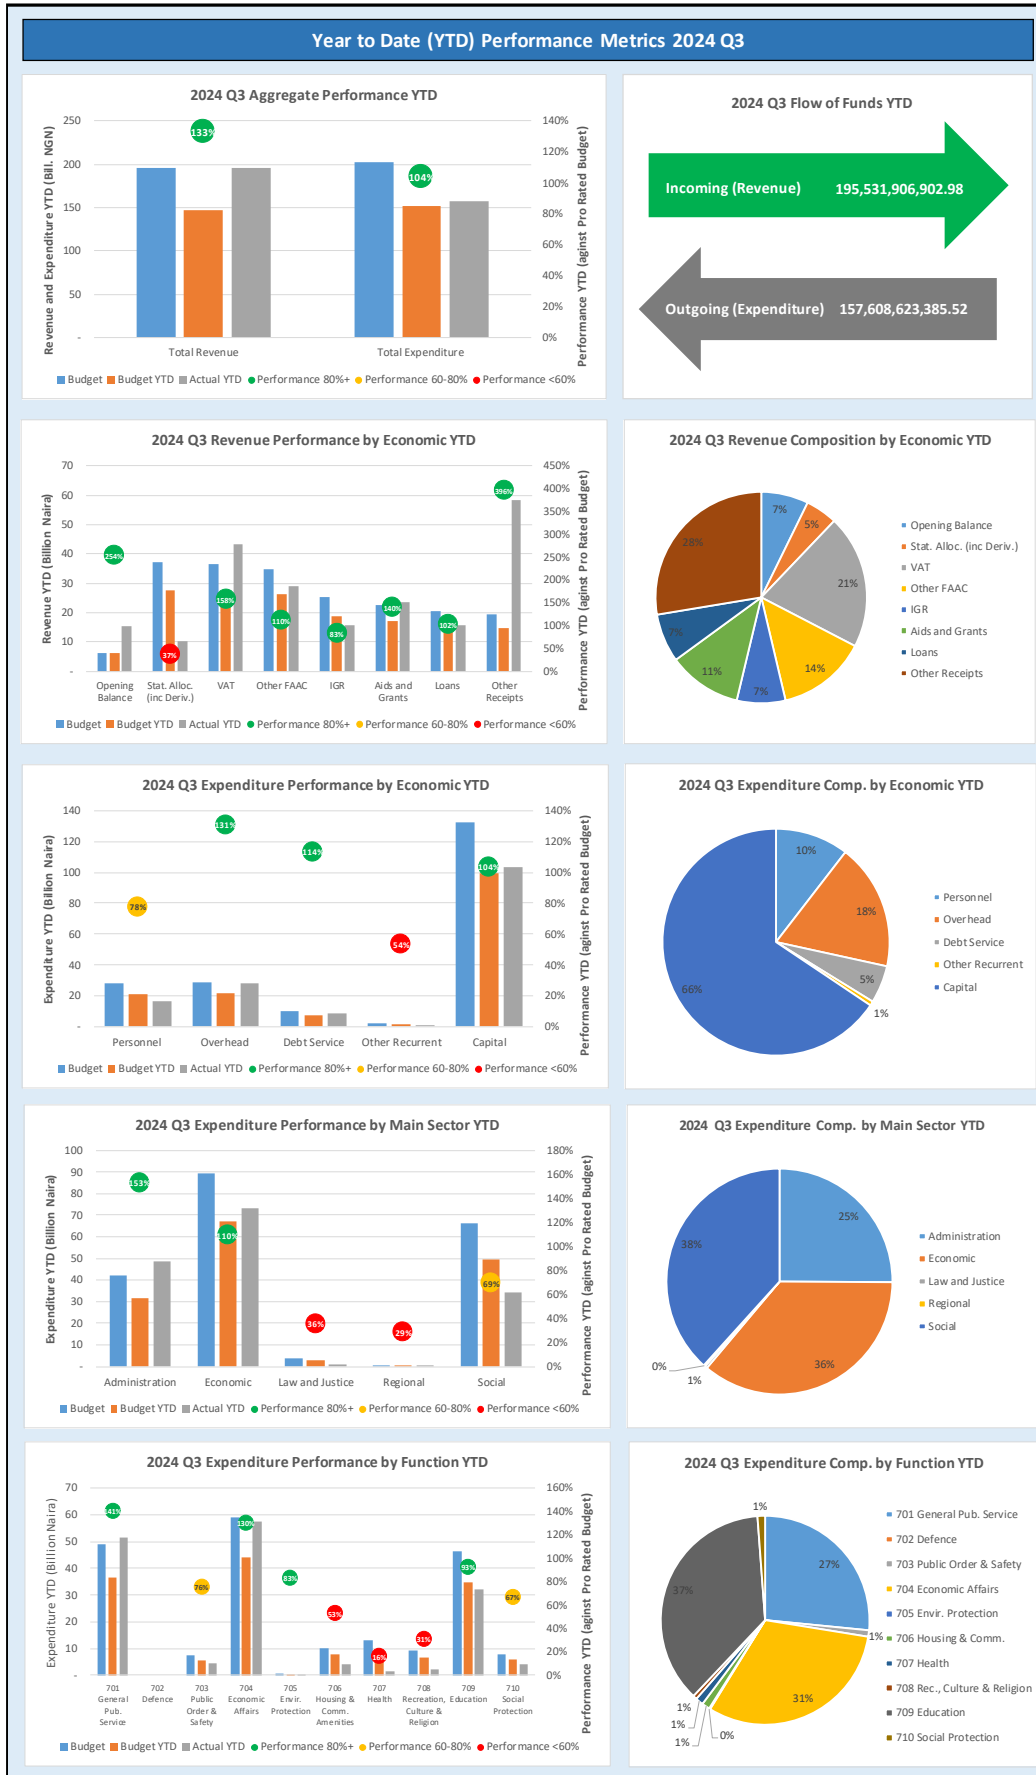

With a total implementation of 78% at the end of the Q3, Ebonyi State Government is well on its way to optimum implementation of the Budget. A supplementary budget has also been introduced and forwarded to the Ebonyi State House of Assembly for approval. This was necessary to address unforeseen challenges that the current budget was not be able to address including salaries of the newly recruited civil servants, increase in the minimum wage, and newly introduced Capital Projects.

Chief Mrs. Chinwe Okah

Honourable Commissioner for Budget, Planning, Research & Monitoring
