## **1. Introduction**

The Framework for Responsible Investment in Land Intensive Agriculture (FRILIA) represents a transformative approach to bolstering sustainable investment in land-intensive agricultural projects across Nigeria. FRILIA aims to harness principles of stakeholder engagement, environmental and social risk management, community development, and more to enhance the resilience and sustainability of agricultural investments.

FRILIA stands as a beacon of innovation for investors seeking to align their agricultural investment projects with global sustainability standards. By integrating FRILIA principles into their investment process, investors can mitigate risks, enhance community relations, and promote long-term viability in their operations. These principles not only contribute to the success of individual investments but also support the overall growth and stability of the agricultural sector in the State.

Effective communication with stakeholders is paramount in ensuring the successful implementation of FRILIA principles. Engaging stakeholders at every stage of the investment process fosters transparency, builds trust, and aligns diverse interests towards shared objectives.

By keeping stakeholders informed and involved, Ebonyi State cultivates a conducive environment for sustainable investment practices and fosters mutually beneficial partnerships within their communities.

This communication strategy outlines a dissemination plan for toolkits developed to unbundle FRILIA and promote effective adoption of the framework by stakeholders throughout the investment project lifecycle.

### **1.1 Objectives of the FRILIA Communication Strategy**

1. Introduce the FRILIA toolkits to stakeholders.
2. Sensitize stakeholders on the toolkits and their applicability.
3. Ensure stakeholder buy-in.
4. Ensure access to the toolkits during FRILIA implementation.

## 2. Communication Strategy for Disseminating Toolkits

When developing the communication strategy for the toolkits, Ebonyi State will focus on the following key points:

### 1. What to Share:

- Define the important information in the toolkits that need to be shared with stakeholders.

### 2. Who to Reach:

- Identify the specific groups who need to be reached, like government bodies, MDAs, local government authorities, community leaders, investors, NGOs, and media.

### 3. How to Share:

- Decide on the best ways to communicate, such as workshops, meetings, infographics, emails, and online platforms.

### 4. Who's in Charge:

- Assign clear responsibilities to ensure that the communication strategy is carried out effectively.

## 2.1 Information Disclosure

The key information to be disseminated to stakeholders are the eight FRILIA Toolkits which address various thematic issues and provide templates to guide relevant MDAs and investors in applying FRILIA principles appropriately throughout the investment project lifecycle. These toolkits are:

1. Stakeholder Engagement Toolkit
2. Grievance Redress Mechanism Toolkit
3. Land Access, Easement and Involuntary Resettlement Management Toolkit
4. Valuation and Compensation Toolkit
5. Environment and Social Risk Management Toolkit
6. Community Needs Assessment and Community Development Plan Toolkit
7. Out-grower Models and Food Security Plan Toolkit
8. Global Memorandum of Understanding (GMoU) Toolkit.

## 2.2 Target Audience

The target audience for FRILIA toolkits and templates are the various FRILIA stakeholders within the State government, local government, federal government (where applicable), host communities and the investor community. It is imperative that stakeholders understand this approach to land intensive investments ahead of the period when an investment is made so that there is time to reflect on and fully understand the framework.

In deciding the target audience, stakeholders are grouped into categories as the consultation content and methodology may be the same for those falling into the same category or differ across categories.

*Box 1: List of Potential Stakeholder Categories*

- State-level MDAs
- Local government authorities
- Landowners and land users
- Traditional authorities
- Vulnerable groups
- NGOs, CBOs, and CSOs
- Lenders
- Local leaders
- Development Partners
- Investors
- Farmers
- Actual or potential employees and labour unions
- Media
- Representative groups for women and youths

*Table 1: Example of Key stakeholders and their respective roles in the B-ADAPT project in Cameroon.*

Stakeholder	Role
GAC	Funding and strategic oversight through the Canada Fund for African Climate Resilience.
Cuso International	Provide human resources and technical assistance, comply with GAC reporting requirements (including financial).
AMFN	Implementing partner - Dja and Mpomo and Campo-Ma'an are AMFN Model Forests since 2005 and B-ADAPT fitted into AMFN's larger economic and environmental resilience programme called <b>"One Programme"</b> . The governing bodies of the two Model Forests provided the structures and human resources on the ground
VSO Cameroon	NGO that recruited, trained and managed volunteers working in the project.
Local communities of the two Model Forests	Women, smallholder farmers and traditional leaders were direct beneficiaries but also participated in intervention design as well as the evaluation.
Government of Cameroon	Implicated at different levels, from the office of the Prime Minister, who enthusiastically supported the project, to the Ministry of Agriculture and the Agricultural Extension Service offices on the ground, who worked closely with the project

### 3. Communication Channels:

Most project failures are due to poor communication with project stakeholders. Different stakeholders have unique and evolving requirements, expectations, and communication needs, requiring Ministry of Lands and Survey to apply a range of different communication strategies to meet all stakeholder needs.

#### 3.1. Pre-Implementation Communication

To kickstart the implementation of FRILIA, Ministry of Lands and Survey will convene a series of sensitization and consultative workshops with key stakeholders (see Annex 1 for draft agenda for the workshop).

Following the workshop, any feedback from participants will be incorporated into the toolkits, which will then be finalized and officially issued by Ministry of Lands and Survey

#### 3.2. Implementation Communication

Once the toolkits have been finalized and officially issued by Ministry of Lands and Survey, then the agency should ensure that the toolkits are disseminated to key stakeholders at a workshop (see Annex 2 for draft agenda for the workshop). Following this dissemination, relevant information about the toolkits will be made available on the State's website and in the list of resources provided to investors and host communities during the Investment Approval Process (IAP). Copies will also be available in the relevant Ministries, Departments and Agencies responsible for each of the eight areas to ensure uniformity and applicability across the board. These will be available in mainly soft copies for potential investors and other stakeholders.

The table below provides a structured guide for Ministry of Lands and Survey to effectively communicate the implementation of FRILIA with stakeholders, outlining key communication elements, strategies, and responsible parties to ensure transparent and timely engagement.

*Table 2: Communication Strategy Table for FRILIA Implementation with Stakeholders*

Communication Element	Description	Communication Strategy	Responsible Party
Objectives and Outcomes	Clearly define the communication objectives and outcomes to stakeholders.	Develop concise messaging on project objectives and expected outcomes.	Ministry of Lands and Survey
Key Messages	Identify core messages to stakeholders regarding FRILIA implementation.	Create key messages highlighting project benefits, milestones, and impact	[Communications Team]

Communication Element	Description	Communication Strategy	Responsible Party
Audience Segmentation	Categorize stakeholders based on their roles, interests, and communication preferences.	Tailor communication strategies to address the specific needs and interests of different stakeholder groups.	[Stakeholder Engagement Team]
Communication Channels	Determine the most effective channels for reaching stakeholders (e.g., workshops, newsletters, social media).	Utilize a mix of channels such as workshops, social media, email updates, and community meetings for broad reach.	[Communications Team]
Communication Timeline	Establish a timeline for communication activities to ensure timely updates and engagement with stakeholders.	Develop a communication calendar with milestones and regular updates on project progress.	Ministry of Lands and Survey
Feedback Mechanisms	Implement mechanisms for stakeholders to provide feedback, ask questions, and share concerns.	Set up feedback mechanisms such as surveys, suggestion boxes, and feedback sessions to gather stakeholder input.	[Feedback Coordinator]
Engagement Activities	Plan interactive engagement activities to involve stakeholders in the implementation process.	Organize engagement activities like focus groups, webinars, and town hall meetings to foster dialogue and collaboration.	[Stakeholder Engagement Team]
Risk Communication	Address potential risks and challenges transparently to stakeholders and provide mitigation strategies.	Develop risk communication protocols and messaging to address concerns and maintain stakeholder trust.	[Risk Management Team]
Monitoring and Reporting	Establish monitoring mechanisms to track communication effectiveness and report on engagement outcomes.	Monitor communication metrics, gather feedback on messaging, and report on stakeholder engagement progress regularly.	[Monitoring and Evaluation Team]
Capacity Building	Provide training and resources to stakeholders to enhance their understanding of FRILIA and their roles	Conduct capacity building workshops, webinars, and training sessions to equip stakeholders with relevant knowledge and skills.	[Capacity Building Team]

Communication Element	Description	Communication Strategy	Responsible Party
	in the implementation process.		

## **Annex 1: Pre-Implementation Workshop Outline**

### **Training Workshop Outline: Introduction to FRILIA for Stakeholders**

**Objective:** The training workshop aims to introduce stakeholders to FRILIA principles and objectives, FRILIA toolkits, and the implementation process.

**Duration:** Full Day Session (8 hours)

### **Agenda:**

#### **Welcome and Introduction**

- Welcoming remarks and setting the context for the workshop.
- Brief overview of the workshop objectives and agenda.

#### **Understanding FRILIA**

- Presentation on the core principles and goals of FRILIA.
- Importance of sustainable agricultural practices and investor engagement.

#### **Introduction to FRILIA Toolkits**

- Overview of the key toolkits developed for stakeholders.
- Explanation of each toolkit and its relevance to sustainable agricultural projects.

#### **Interactive Session: Toolkit Application**

- Group activity or case study exercise to apply the toolkits in hypothetical scenarios.
- Discussions on applying the toolkits to real-world projects and challenges.

#### **Stakeholder Engagement and Feedback**

- Importance of stakeholder engagement in the success of FRILIA.
- Open discussion for stakeholders to provide feedback, ask questions, and share insights.

#### **Next Steps and Action Planning**

- Summary of key takeaways from the workshop.
- Action planning session for stakeholders to identify their roles in the IAP and compliance with FRILIA principles, alike.

#### **Closing Remarks and Networking**

- Appreciation of stakeholder participation.
- Networking opportunity for stakeholders to connect and collaborate post-workshop.

**Materials Needed:**

- Presentation slides on FRILIA principles and toolkits.
- Case study/scenarios where FRLIA principles have been applied and benefits realized.
- Handouts or materials detailing the content of each toolkit.
- Flip charts, markers, and sticky notes for interactive activities.
- Evaluation forms for feedback collection.

## **Annex 2: Workshop for FRILIA Toolkit Dissemination**

### **Stakeholder Engagement Workshop for FRILIA Toolkit Dissemination**

**Objective:** The workshop aims to introduce stakeholders to the toolkits developed for implementation, facilitate understanding of key frameworks, and foster engagement for successful adoption in land-intensive agricultural projects.

**Duration:** Full-Day Session (8 hours)

### **Agenda**

#### **Registration and Welcome**

- Registration of participants
- Welcome and introduction to the workshop objectives.

#### **Overview of FRILIA and Toolkit Introduction**

- Presentation on the background of FRILIA initiative
- Introduction to the toolkits and their significance in sustainable agricultural development

#### **Stakeholder Engagement and Needs Assessment**

- Understanding the importance of stakeholder engagement in project success
- Needs assessment discussions with stakeholders.

#### **Deep Dive into Toolkit Frameworks**

- Breakout sessions for each toolkit area
- Guided exploration of toolkit frameworks and templates

#### **Interactive Activity: Applying Toolkits**

- Group exercise to apply toolkit principles to case studies.
- Q&A session with toolkit experts

#### **Stakeholder Feedback and Open Forum**

- Opportunity for stakeholders to provide feedback on toolkits.
- Open discussion on challenges, opportunities, and best practices

#### **Action Planning and Commitments**

- Group activity to develop action plans for toolkit implementation.
- Individual commitments to support toolkit utilization in projects.

## Closing Remarks and Next Steps

- Summary of key takeaways from the workshop
- Distribution of toolkit resources and materials
- Acknowledgment of stakeholder contributions and next steps for implementation

## Materials Needed:

- Presentation slides on FRILIA principles and each toolkit.
- Case study/scenarios where FRLIA principles have been applied and benefits realized.
- Handouts or materials of each toolkit.
- Printed and soft copies of case studies for each toolkit
- Flip charts, markers, and sticky notes for interactive activities.
- Evaluation forms for feedback collection
- Stakeholder Contact Information Sheets

**Signed:**

**Dr. Matthew Edegu Nwobasi**  
Honourable Commissioner  
Ebonyi State Ministry of Lands and Survey.  
21<sup>st</sup> December, 2024
